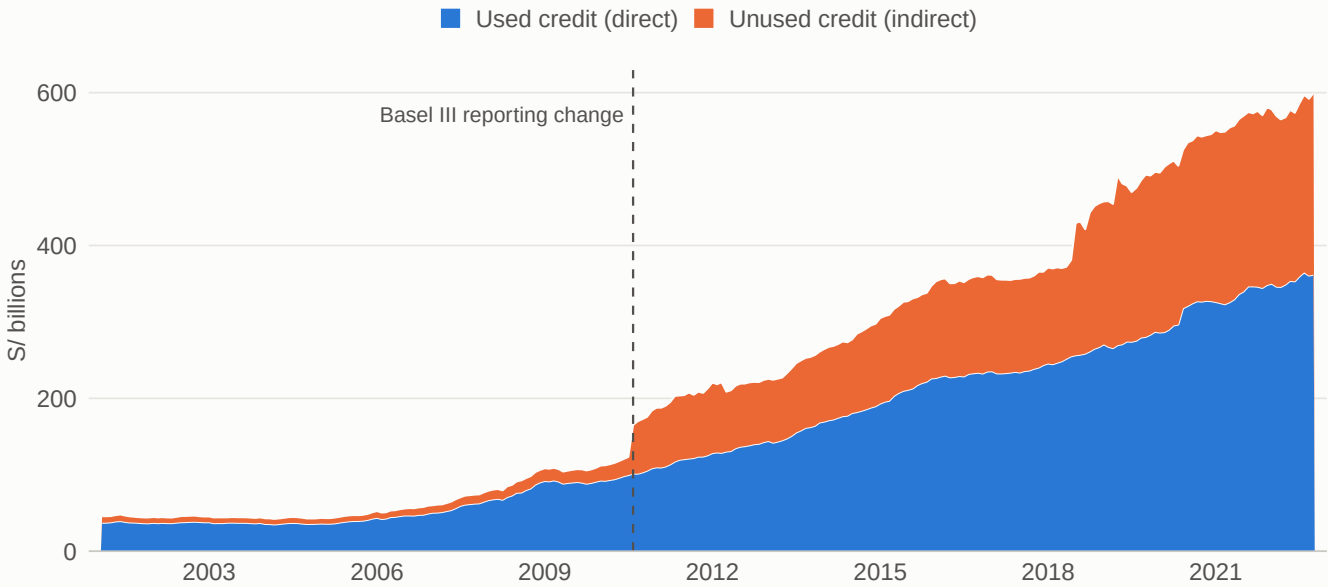
Used and Unused Credit in the Peruvian Banking System

Banca Multiple, monthly, billions of soles



Used credit = creditos directos (SBS Series Estadisticas). Unused credit = creditos indirectos (SBS B−2322), which comprises unused credit lines and undisbursed commitments plus guarantees, letters of credit and acceptances. Unused credit lines enter the definition only from July 2010 (Res. SBS 11356−2008), hence the dashed rule; the series is not comparable across it. Used credit ends 2022−09, the last month of the Series Estadisticas extract.
